Dear Sen. Baucus —

Enclosed is a copy from a recent Amnesty International Bulletin. Of special interest are the articles pertaining to our "friends" in the "Free World": Argentina, Uruguay and Costa Rica.

Please read the articles on Argentina & the "Secret Camps" carefully because if it is true, we may ^{have} a situation unlike that during WWII & Nazi Germany. It may be no coincidence that many Nazis emigrated to Argentina.

Considering Carter's position on Human Rights, what can the Democratic Party and you do to protest and demand its treatment of human rights? Any specific information and suggestions will be appreciated.

Respectfully,

ARGENTINA PROJECT (S200000044)
